

Tsunami Pump[®]

your preferred water booster

MAIN PIPE ASSIST ASSIST Pressure Pump

**AUTO PRESSURE CHECK
IN EVERY 30 mins**

**ANTI DRY-RUN
PROTECTION**

**Low
Maintenance**

**Energy
Saving**

**Over Heating
Protection**

**Strong &
Durable**

**Anti - Rust
Pump Shell**

**Less Noise
Operation**

BJA | MAIN PIPE ASSIST PRESSURE PUMP

Specially designed for residential area with low water pressure from main pipe water supply.
Suitable for daily households, gardening, car wash, pump water up to solar water heater and water tank, etc.

- **Main Pipe Assist**
Direct boosting from main pipe water supply.
- **Anti Dry-Run Protection**
protects pump from dry-running when there is no water supply from main pipe and check pressure automatically in every 30 minutes.
- **Auto-Boost**
Back in boosting operation automatically when main pipe water supply is back in normal.

- Integrating pressure sensors, pressure tank, circuit board.
- Anti-rust body, low noise operation, moisture proof for longer lifespan.
- Intelligent double control prevent frequent startup & overheat protection.
- Compact structure and convenient installation.
- Anti-rust & durable stainless steel 304 impeller.
- Energy saving and environmental friendly.

With BJA Pump, will effectively pulling main pipe water supply up to water storage tank, throughout entire building.

TECHNICAL & PERFORMANCE DATA

Model	Power	Horse Power	Voltage/ Frequency	Max Flow	Max Head	Current	Suction	Speed	Inlet/ Outlet	Support Up To
	(kW)	(HP)		(m ³ /h)	(m)
