

# ONE PRESS DUST FLUSH ACTION FOR SELF-CLEANING

The new TVC-S15 & TVC-D25 with NEW function of dust flushing!

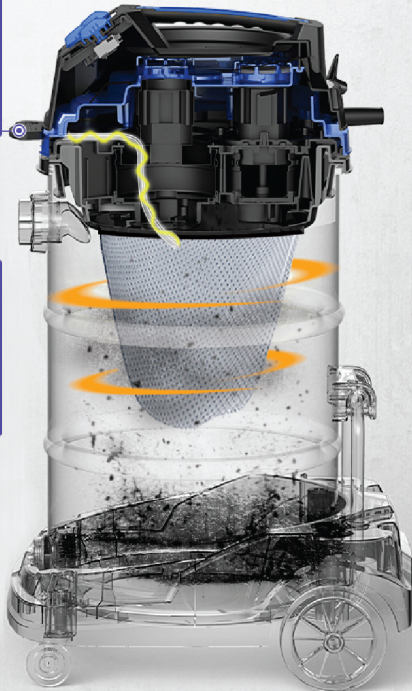

Users always complaint vacuum cannot fully performs with full dust, the filter always be blocked by dust. Users have to spend time in cleaning the filter so can back to vacuum task. In order to solve this problem, we've developed TVC-S15 & TVC-D25, it can clean the filter and back to 80% vacuity at least, by pressing the dust flush button for several times, the strong airflow will shake & backflush the dust bag under high pressure, to recover vacuity!

1  
Press & hold nozzle to stop vacuum suction.

2  
Press & hold the button for 2 secs to create vacuum turbulence inside the tank, then backflush dust from dust bag and trap dust at the bottom of tank.

## SPECIFICATIONS

### TVC-S15

#### DUST & WATER VACUUM CLEANER

Voltage / Frequency: 240 V ~ 50 Hz

Power: 1000 W

Tank Capacity: 15 Litre

Vacuity: > 16 Kpa

Suction hose diameter: 32 mm

Suction hose length: 1.5 m

Cable length: 3 m

Airflow rate: ≥ 1.5 m³/min

Noise: ≤ 78 dB

**3 IN 1**  
WET | DRY | BLOW

### TVC-D25

#### INDUSTRIAL DUST & WATER VACUUM CLEANER

Voltage / Frequency: 240 V ~ 50 Hz

Power: 1200 W

Tank Capacity: 25 Litre

Vacuity: > 18 Kpa

Spring hose diameter: 38 mm

Spring hose length: 1.5 m

Cable length: 4 m

Airflow rate: ≥ 1.5 m³/min

Noise: ≤ 78 dB

**2 IN 1**  
WET | DRY

# TVC-D25
