

Tsunami Pump®

your preferred water booster

MAGNETIC VARIABLE SPEED PUMP SOFT-e

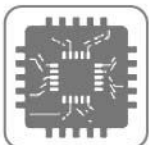

Automatically adjusts operation based on water taps usage, to deliver consistent water pressure.

BEST for old houses with old water pipes!

MAGNETIC MOTOR

Compact, Powerful, Energy Saving

INTELLIGENT PROCESSOR

High Efficiency Smart Controller

STAINLESS STEEL IMPELLER

High Speed, Safe & Hygiene

INTEGRATED FLOW SENSOR

Smart Pressure Sensing

MAXIMUM SAFETY LEVEL

Anti-Block, Dry-Run & Over-Load Protection

SELF-DETECT ERROR

Hassle-Free Error Detection

ADJUSTABLE PRESSURE

1 - 4bar Pressure Level Preset 3bar

TECHNICAL & PERFORMANCE DATA

Model	Power P1	H. max.	H. rated	Q. max	Q. rated	Max Speed	Inlet/Outlet
	W	m	m	m ³ /h	m ³ /h	rpm	inch
SOFT-e	650	45	37	4.8	2	5000	G1

ADVANTAGES

- **Intelligent and efficiency**
Provide constant pressure water supply.
- **High efficiency and energy-saving**
Grade IE4 motor, the average energy saving is more than 30% compared with the same power motor.
- **Easy operation**
Just power on the pump and automatically run at 3bar that preset by the manufacturer.
- **Customizable pressure, from 1 to 4bar.**
Power on and setting to the required pressure on the control panel.
- **Dry running protection**
Automatically stop after 30sec of dry running without water supply.
- **Anti-clogging system**
Self-operate for few seconds in every 12 hours, to prevent pump from clogging when the pump is not running for long period.

TECHNICAL DETAILS

Max. solid size	0.2mm
Max. liquid temperature	104°C
Ambient temperature	0°C to 40 °C
PH valve	6.5 to 8.5
Max. relative humidity	85%
Concurrently in use Normal Shower Head	 x3

MATERIAL

Casing	ABR
Pump Body	Stainless Steel
Impeller & Shaft	Stainless Steel
Mechanical Seal	Silica Carbon

EASY TOUCH USER CONTROL PANEL FOR PRESSURE ADJUSTMENT

- **No stress to old house's water piping, especially the old pipes.**
